

KIP 9900 System

22 'D' size 'A1' per min
600 x 1200 DPI Print Resolution
4 Media Rolls with automatic Sheet Feeder
Single & Dual Footprint Configurations

KIP 9900

The KIP 9900 System sets a new standard for top quality high demand printing of technical documents. The system delivers nonstop production levels with razor sharp line detail, superior half tones and smooth gradients while decreasing operational and ownership costs.

KIP 9900 Print Systems Features

- ✓ 22 'D' size 'A1' per min
- ✓ 1,320 'D' size per hour
- ✓ 600 x 1200 DPI output resolution
- ✓ Advanced multi-thread processing
- ✓ Uniform cut length
- ✓ Utilizes KIP High Definition Print Technology with 100% toner efficiency
- ✓ KIP 7.0 software application drivers
- ✓ Integrated accounting software
- ✓ PC and Web based submission tools
- ✓ Advanced fine line and grayscale image enhancement
- ✓ Integrated touch screen with superior user experience

KIP 9900 Production Print, Copy and Scan Systems

The KIP 9900 Production system features the ultimate in document workflow flexibility and efficiency. Coupled with the KIP 2300 camera based production scanner, the KIP 9900 Copy, Print and Scan system handles the full spectrum of monochrome

and color scanning applications - making it ideal for technical imaging as well as full color graphics. The KIP 9900 Production System provides the capability to scan to network PC's, web based plan room applications, removable media drives at the touch screen user interface or a standard pc utilizing the included KIP 7.0 CPS Center software application suite.

- ✓ Featuring KIP Tru-Speed image data transfer – up to 5 times faster than USB 2.0
- ✓ Exceptional versatility with single or dual footprint configurations
- ✓ Thick rigid original support with automatic board sensing mode
- ✓ Create color copies directly to inkjet printers
- ✓ Supports a wide range of single and multi-page monochrome and color file formats
- ✓ Optional KIP Color Pro Software for professional grade color management

KIP 9900 with KIP 2300 High Production Scanner

The KIP 9900 printer may be combined with the KIP 2300 high production scanner to produce the ultimate high demand production system. Superior image quality is achieved through by a combination of advanced camera based image capture and new KIP Tru-Speed technology for extremely high speed data throughput with no system pauses or slow downs.

- ✓ Exceptionally durable construction ensures reliability for production environments
- ✓ Dual mode scanning with thick document support
- ✓ Create superior copies to inkjet printers and accurate scans from complex color originals
- ✓ True 600 x 600 dpi optical resolution -24bit image capture
- ✓ High speed data transfer with KIP Tru Speed technology
- ✓ 12 month optical system warranty

KIP 7.0 CPS Center Software

The KIP 7.0 CPS Center software suite is comprised of printing, scanning and copying applications designed to be operated on a standalone PC workstation. This approach delivers maximum productivity due to advanced workflow tools and an easy to use graphical user interface.

- ✓ Two-way real time printer status contains roll and media information within each KIP driver
- ✓ Internet browser based management and printing
- ✓ Unified accounting for copy, print, and scan functions
- ✓ Recall, modify, and reproduce past print jobs
- ✓ Automated E-mail reporting for printer status & use

KIP Color Pro Software

This optional software package delivers advanced copying and scanning features and also includes the ability to RIP files to print. KIP Color Pro software provides advanced color management features and professional image editing tools that allow you to perform difficult tasks easily and with consistent results from one job to the next.

- ✓ Total control of the copying process
- ✓ Full-featured scanning & archiving
- ✓ Open and RIP files to Inkjet
- ✓ Multiple KIP scanner and printer support
- ✓ Powerful tools to streamline usage

KIP 9900 Finishing Systems

The KIP 9900 Series are compatible with a range of finishing solutions designed to deliver print output just the way you want it. From simple print catchers to intelligent online finishing systems, KIP solutions can be easily tailored to suit your exact needs, while maintaining the flexibility to grow as demands increase.

KIPFold 9900

The KIPFold 9900 systems automate document finishing requirements by providing folding, finishing and collation in a compact design. The system is fully integrated with all KIP copying and printing applications and drivers to provide seamless workflow integration.

The Color of KIP is Green

KIP is committed to product designs that promote environmental health and sustainability. Our goal is to consistently improve and refine the technologies in KIP products that keep our planet green.
